

VSM-4X4HFS

The VSM-4x4HFS is a seamless matrix switcher that can also be used as a 2x2 video wall driver or dual and quad multi-viewers. The unit allows switching between inputs with a clean video cut (frame-to-frame switching with no glitches). The VSM-4x4HFS supports HDMI resolutions with deep color, up to eight channels of audio and includes per-port HDCP and EDID settings.
