

Unprecedented power density – The FP 14000 delivers a total of 14000 W (2 x 7000 W @ 2 ohms) in only 2U. Lab.gruppen sound quality – The FP 14000 is optimized for sustained performance into extreme low-frequency loads, yet it also maintains Lab.gruppen's reputation for exceptionally smooth and transparent mid- and high-frequency response. NomadLink® network ready – Monitoring and control of key functions accessible via the intuitive DeviceControl software and the robust, daisy-chained NomadLink® network, as well as by the leading third party control platforms. Patented Class TD® amplifier topology – Road-proven output stage delivers Class B audio quality with Class D efficiency. Regulated Switch Mode Power Supply (R.SMPS™) – Output power remains constant even with significant drops in the mains voltage. Efficient cooling system – Unique, lightweight Intercooler copper cooling system dissipates more heat to allow extended peak output. Adjustable parameters – Selectable Gain, scalable Voltage Peak Limiter (VPL™), and bridge-mode operation allow custom configuration for any system or application. XLR input and link connectors. Heavy-duty binding posts. Comprehensive protection and warning – Excessive output current, DC, high temperature, very high frequency (VHF), short circuit, open load, mains fuse protection, and soft start.

Code: E008178-(A)

Part Number: 000-CNP

Price for: pcs

2-channel power amplifier 2 x 4400W 4Ω

Manufacturer Name:	LAB GRUPPEN
Model:	FP 14000 /BP
Part Number:	000-CNP
Channels	Dual Channel
Resistance ohms	4Ω / 16Ω, 2Ω
Power (8 ohms/Watt RMS) per channel	2350
Power (4 ohms/Watt RMS) per channel	4600
Power (2 ohms/Watt RMS) per channel	7000
Application	Concert, Installation, Portable PA
Weight (kg)	12
	Installation,Rental
Guarantee	10 Years Guarantee
