

The DM12 is an high output dynamic microphone with a frequency response specifically tailored for kick drum and other bass instruments. It provides superb studio quality punch even in high sound pressure level applications. The DM12 features a super-cardioid polar pattern to ensure high gain before feedback and excellent off-axis rejection. An integrated locking stand adapter with XLR connector makes set-up operations very easy, expecially if the microphone needs to be placed inside a bass drum. The adapter absorbs vibrations.

Manufacturer Name:	EIKON
Model:	DM-12
Part Number:	
Microphone Type	Wired
Microphone Categorie	Musical Instrument
Capsule Microphone	Dynamic
Polar Chart	Super Cardioid
Frequency Response	15-15000
Sensitivity (mV/Pa)	-60dB 3dB(0dB=1V/Pa at 1kHz)
Application	Concert, Portable PA, Studio
