

Tesira EX-UBT

EX-UBT can transport USB digital audio reliably throughout a customer's network. Since the Tesira EX-UBT is not limited by the specification-defined maximum USB connection length of 5 meters, it's ideal for installations requiring USB connections not located in a rack or near other equipment, as well as for installations requiring multiple USB audio inputs, or in projects using Tesira SERVER or SERVER-IO as the DSP since they have no on-board USB connection

Κατασκευαστής:	BIAMP
Μοντέλο:	Tesira EX-UBT
Part Number:	911.0443.900

Τιμή Λιανικής
952,59€ *
