

The EVIVA 15P is a 15" powered portable loudspeaker that brings Electro-Voice quality sound and components to aspiring musicians, DJs, and small venues. It has been designed for rapid deployment, so its user-friendly control and easy connectivity combine well with a lightweight design to ensure single-person setup is possible. EVIVA 15P can be combined with other members of the EVIVA family to create class-leading systems. Weighing just 14.6 kg, EVIVA 15P offers a 90° x 60° (horizontal x vertical) coverage pattern, delivering clean, even sound across the audience area. EVIVA 15P has a frequency range of 45 Hz – 20 kHz (-10 dB) and a maximum SPL of 126 dB delivering a class-leading sonic performance. It offers industry standard connectivity to make setting up any gig as fast as possible with two XLR combo jack mic/line inputs, an XLR mix output, and Bluetooth® audio streaming. Put through the same rigorous testing as every Electro-Voice loudspeaker, EVIVA 12P delivers a consistent performance that can be relied on every time. The 2-way full range system features a robust composite enclosure, 1000 Watt amplifier, and 2-channel analog input section. The intuitive control panel features knobs for level adjustment and switches to change the mode between MUSIC and LIVE and high pass changes between NO SUB and WITH SUB EVIVA 18SP.
