TALKBOX SYNTH

Studio-quality guitar talkbox and synth pedal with vocal tone polishing. Authentic vintage guitar-vocal effect emulates classic talkbox tones. Exciting onboard synth sounds and vocoder triggered by single note guitar runs. Vocally tuned reverb places your voice in the perfect musical space. Effortless auto-chromatic pitch correction helps you sing in tune. Adaptive Tone for perfect EQ, compression, de-essing and gating. High-quality, low-noise mic preamp for pristine vocals. Simple 3-knob control gets you up and running in seconds. On/off foot switch for quick performance control.
