

DM-NVX-352

A reliable, high-performance AV over IP encoder or decoder that transports 4K60 4:4:4 video over standard Gigabit Ethernet with no perceptible latency or loss of quality. Supports HDR10 and HDCP 2.2 with built-in scaling and video wall processing, USB and KVM routing, native Dante® or AES67 transmit and receive capability, and optional fiber connectivity. Provides a secure, scalable 4K signal routing solution for enterprise and campus-wide content distribution applications.

Manufacturer Name:	CRESTRON
Model:	DM-NVX-352
Part Number:	6508634

Retail Price
2.952,00€ *
