

UCS-1

The UCS-1 is a premium tabletop call station designed for clear and reliable announcements. Its unidirectional condenser microphone ensures focused audio capture, while the heavy base and rubber feet provide exceptional stability on any flat surface. Featuring a modern, streamlined design, the UCS-1 blends seamlessly into a wide range of environments. Functions Push-to-talk operation The UCS-1 features a convenient push-to-talk button that instantly mutes or activates the microphone. When engaged, it also provides priority signaling to the connected U Series Mixer Amplifier, ensuring your announcements are heard first. Flexible Connectivity Supplied with a 2-meter cable that can be adjusted to your preferred length, the UCS-1 uses a reliable 5-pin Euroblock connector for secure and easy installation. If priority signaling is not required, a 3-Pin Euroblock connector can be used instead. Visual status indicator A green microphone icon illuminates when the microphone is active, giving clear visual confirmation for smooth operation.
