**KARA II**

KARA II is a 2-way, bi-amplified design and is equipped with 2 x 8” neodymium LF speakers in a bass-reflex tuned enclosure. The HF section features a 3” neodymium diaphragm driver coupled to a DOSC® waveguide. Based on the Kara design, Kara II adds flexibility with PanflexTM. A single Kara II enclosure offers four horizontal directivity patterns: 70° or 110° symmetrical or 90° asymmetrical on either side. With a tighter control of the directivity, the 70° setting brings an additional 2 dB compared to the 110° setting increasing throw capability. Ultra-precise audience coverage and smooth SPL distribution is granted by the combination of Panflex and a large choice of inter-element angles
