

Xvls

The Xvls has a 90 degree horizontal coverage pattern, ideal for long throw applications. Its vertical coverage angle is approximately five degrees. The Xvls high-frequency section is comprised of three neodymium ND6 high-frequency compression drivers, dual, eight", neodymium ND08 MB woofers mounted on a wide mid-bass horn, and dual, 15" EVX-155PL (plate) low-frequency woofers. EV Hydra™ time synchronized, high-frequency vertical plane wave generator provides excellent far-field summing. Proprietary rigging allows for rapid venue load-in and load-out.
