

The T Series is a very flexible and cost-effective amplifier platform with loudspeaker processor. All models deliver the same high peak voltage allowing high SPL with single 8/16 ohm cabinets on all models. The high voltage is also good for sharing power between the channels for applications such as bi-amped loudspeakers or subwoofers with passive tops. The amplifiers feature input via Dante, AES3 and analog. The Dante and AES3 solutions are optimized for daisy-chained distribution of 2-channel audio for distribution to many amplifiers without the need for external switches/repeaters/ splitters. A simple Dante system has a daisy chain with the mixing console at one end, a WiFi access point at the other end and the amplifiers in-between.

| Manufacturer Name: | POWERSOFT |
| Model: | T602 DSP+D |
| Part Number: | PF00H471 |
| Channels | Dual Channel |
| Resistance ohms | 8Ω / 4Ω / 2Ω |
| DSP | Yes |
| Power (8 ohms/Watt RMS) per channel | 1300 |
| Power (4 ohms/Watt RMS) per channel | 2500 |
| Power (2 ohms/Watt RMS) per channel | 3000 |
| Application | Concert, Installation |
| Weight (kg) | 7,5 |
| | Rental |
| | 5/3/2021 |
| | 4/6/2021 |
| Guarantee | 4 Years Guarantee |
