26750

Space-saving speaker stand with a large, flat cast-iron base (ø 450 mm). The solid steel construction impresses with its stability and supports speakers weighing up to 35 kg when the load is centred. For optimal sound reinforcement height, 100 mm steps can be set between 930 and 1430 mm. The slim clamp with safety hook is easy and comfortable to use. The end tube has a diameter of 35 mm and is therefore suitable for all corresponding flange bushings. The range of applications can be extended with a variety of accessories such as a projector tray (26747), mounting adapter (19580), etc.
