

Although we refer to it as a “column” loudspeaker, the INSPIRE iP2000 delivers the powerful, high-quality sound and optimised dispersion inspired by our award-winning line array products – in a surprisingly lightweight and easy to use, all-in-one form factor. Thanks to an on-board 3-channel digital mixer and multichannel 1,000-Watt Class-D amplifier driving a custom-engineered 12” subwoofer, 16 x 2.75” neodymium drivers, and a horn loaded super tweeter, the iP2000 is ideally-suited for small to medium-sized performance venues, houses of worship, boardroom presentations, nightclubs, and much more. The iP2000 is lightweight: only 30.7 kg (67.7 lbs) and features industry-leading KLARK TEKNIK Digital Sound Processing (DSP), Class-D amplifier and Spatial Sound technologies – plus convenient Bluetooth stereo audio streaming and iPhone/iPad remote control.
