

A15i WIDE

A15i Wide is the installation version of the A15i Wide, designed for medium throw installation applications. A15i Wide shares identical sonic performance with its touring counterpart but features a sleeker design and streamlined mounting hardware for greater integration. The 30° enclosure of A15i Wide enables a compact array to provide expansive coverage while preserving sightlines. Panflex allows users to adapt directivity to the audience geometry and ensures exceptional frequency response stability.
