

## EMOTION LV1 32 ST FULL DYNAMICS

eMotion LV1 is a revolutionary digital mixing console for front-of-house, monitor and broadcast engineers. Based on Waves SoundGrid technology, this software mixer delivers the superior sound quality for which Waves is renowned, as well as the quick and convenient workflow needed in demanding live environments. eMotion LV1 gives you unprecedented control over every aspect of your live sound. Each of the mixer's channels has its own plugin rack capable of running up to eight Waves and third-party plugins. This means you can mix live with hundreds of your favorite plugins—all running inside the mixer itself. All plugin presets and chains saved in eMotion LV1 can be shared with the Waves MultiRack and StudioRack plugin hosts, enabling you to move seamlessly between live and studio environments.
