

PLATFORM M

Advanced control surface mapped specifically for the eMotion LV1 live mixing console, with 8+1 faders adding quick and easy tactile control to your live mixing workflow. Versatile and compact enough to fit comfortably into any FOH, monitor, recording, or broadcast environment, Platform M lets you control customizable inputs, plugin settings, bus sends and more on your eMotion LV1 live mixer. With an intuitive layout, Platform M gives you 8 full-sized motorized channel faders, 1 master fader, 8 rotary dual-function encoder knobs, illuminated channel and configuration buttons, a touch-and-turn jog wheel for fast control of any parameter, and access to your entire mix by banking across mixer layers.
