WP-789R/EU-80/86(W)

WP−789R is a high−performance, long−reach HDBaseT wall−plate receiver for 4K@60Hz (4:2:0) HDMI and HDCP 2.2 signals over twisted pair. It converts the transmitted HDBaseT signal into an HDMI signal. It extends video signals up to 40m (130ft) over Kramer copper cables at 4K@60Hz (4:2:0) 24bpp video resolution and provides even further reach for lower HD video resolutions. This wall−plate is powered through PoE (Power over Ethernet) over the twisted pair cable.
