

RC-63DLN (B)

The RC-63DLN is a 6-button control keypad with knob and LCD displays. Connected over KNET™ to master room controller and auxiliary keypads for remote keypad control, it can serve either as a standalone room controller or part of a multi-unit KNET™ system. The RC-63DLN is ideal for classrooms and meeting rooms, for convenient control of their multimedia devices and other room facilities such as screens and shades.
