SAMSUNG

Communicate with your customers without the need for physical paper materials. The simple, ready-to-use Business TV app allows you to showcase advertising content alongside TV programming. Deliver a brilliant visual experience with UHD displays in a range of sizes to fit any space or budget. Featuring an impressive warranty, Business TVs are built to operate even with extended daily business hours, 16-hours a day, 7 days a week. The Samsung Business TV app, available for Android and iOS devices, provides additional convenience by allowing users to remotely manage and control content on connected Business TVs. Set up could not be easier. Samsung's Business TV comes preloaded with a step-by-step tutorial that automatically begins when users first turn the TV on. After downloading the business TV app, users' devices are automatically connected to the TV and available for immediate use. Support more than 100 pre-loaded templates including L-Bar layouts, motion-embedded, seasonal sale and other pre-designed promotions for do-it-yourself content creation. An incredibly simple interface allows you to edit, review, finalize and deploy content — even across multiple displays — with just a few quick taps. Spend less time dealing with technical issues. An on/off timer allows the TV to automatically operate during business hours and a pin-code protects the display settings, avoiding any potential content interruptions.
