

The T Series is a very flexible and cost-effective amplifier platform with loudspeaker processor. All models deliver the same high peak voltage allowing high SPL with single 8/16 ohm cabinets on all models. The high voltage is also good for sharing power between the channels for applications such as bi-amped loudspeakers or subwoofers with passive tops. The amplifiers feature input via Dante, AES3 and analog. The Dante and AES3 solutions are optimized for daisy-chained distribution of 2-channel audio for distribution to many amplifiers without the need for external switches/repeaters/ splitters. A simple Dante system has a daisy chain with the mixing console at one end, a WiFi access point at the other end and the amplifiers in-between.

Manufacturer Name:	POWERSOFT
Model:	T904 DSP+D
Part Number:	PF00H476
Channels	Four Channel
Resistance ohms	8Ω / 4Ω / 2Ω
DSP	Yes
Power (8 ohms/Watt RMS) per channel	1600
Power (4 ohms/Watt RMS) per channel	2000
Power (2 ohms/Watt RMS) per channel	1800
Application	Concert, Installation
Weight (kg)	7.8
	Installation,Rental
	23/6/2021
	23/12/2021
Guarantee	4 Years Guarantee
