KT-205WM

KT−205WM is a new powerful, 5.5 inch, IPS, multi−touch, touch panel with 720x1080 (10:16) resolution. Elegantly designed for wall−mounted decorative room integration. KT−205WM runs the latest Android 11, supports wired PoE (Power over Ethernet) and advanced Wi−Fi connectivity options. The touch panel has a built−in speaker and microphone and comes with a wall mount. The touch panel is easy to assemble, with elegant wiring and secured mounting providing reliable operation and flexible deployment. KT−205WM touch panel is ideal for 24/7 Kramer−supported commercial AV or control applications and features a user−friendly, fully customizable graphical user interface configured by Kramer software.
