

The T Series is a very flexible and cost-effective amplifier platform with loudspeaker processor. All models deliver the same high peak voltage allowing high SPL with single 8/16 ohm cabinets on all models. The high voltage is also good for sharing power between the channels for applications such as bi-amped loudspeakers or subwoofers with passive tops. The amplifiers feature input via Dante, AES3 and analog. The Dante and AES3 solutions are optimized for daisy-chained distribution of 2-channel audio for distribution to many amplifiers without the need for external switches/repeaters/ splitters. A simple Dante system has a daisy chain with the mixing console at one end, a WiFi access point at the other end and the amplifiers in-between.

<b>Manufacturer Name:</b>	POWERSOFT
<b>Model:</b>	T902 DSP+D
<b>Part Number:</b>	PF00H477
<b>Channels</b>	Dual Channel
<b>Resistance ohms</b>	8Ω / 4Ω / 2Ω
<b>DSP</b>	Yes
<b>Power (8 ohms/Watt RMS) per channel</b>	1800
<b>Power (4 ohms/Watt RMS) per channel</b>	3200
<b>Power (2 ohms/Watt RMS) per channel</b>	4000
<b>Application</b>	Concert, Installation
<b>Weight (kg)</b>	7.8
	Installation,Rental
	23/6/2021
	23/12/2021
<b>Guarantee</b>	4 Years Guarantee
