

OMNIS-DUO

Pioneer Dj

Portable all-in-one DJ system. Easily slide the OMNIS-DUO into a good-sized backpack and carry it anywhere thanks to the compact size. Play for up to 5 hours without plugging into the mains. When it's time to top up the power, you can connect the AC adapter or plug in a compatible power bank (45W or more) to the dedicated USB Type-C terminal. Never disappoint a friend again when they request a song. Instead, invite them to connect their phone to the OMNIS-DUO via Bluetooth function and you can drop the track into your set. Play your music from almost any source. USB Type-A drives and SD cards can be plugged straight into the OMNIS-DUO, as well as a PC/Mac via the USB Type-C terminal if you want to use rekordbox Performance mode and Serato DJ Lite.
