

DUGAN AUTOMATIC MIXER

Mixing multiple microphones can be easy: 2 plugins for auto-mixing several mics in real time, one for the eMotion LV1 mixer, one for other live consoles (via MultiRack). Dugan Speech and Dugan Automixer are the definitive solution for broadcast news panels, radio and TV talk shows, houses of prayer, motion picture dialog recording, discussion panels, and any other situation involving numerous microphones and participants. In this high-value package, you get the Dugan Speech plugin for integrated use inside the eMotion LV1 mixing console, and the Dugan Automixer plugin for use with other major consoles via the MultiRack plugin host. Developed with pro audio inventor Dan Dugan, both Dugan plugins are powered by his patented voice-activated process.
