FAST FLUID 5 L

The Cameo Fast Fluid is designed specifically for spectacular CO2 effects and creates a very dense white fog boost with excellent reflective behaviour and a very short standing time (only seconds). It is suitable for all common fog machines and immediately ready to use. The Cameo Fast Fluid is manufactured in Germany under constant quality control . It is odourless, biodegradable and non-toxic. A document of compliance and a DIN safety data sheet are available for download; the container is reusable. The water used in the manufacturing process of the fluids is distilled 10 times and thus guarantees that the fluids in use hardly contain any residues.
