

GENESIS

Waves Genesis is a collection of four must-have plugins for live sound. Perfect for venues of all sizes, Genesis is Native, TDM and SoundGrid® compatible, and covers all your essential processing needs. Genesis includes the C4 Multiband Compressor for dynamic equalization and tone-shaping; Renaissance DeEsser to control sibilant “ess” and “shh” sounds; Renaissance Reverb for space and atmosphere; and H-Delay to create depth and movement. Together, these four plugins form the basis of an expandable, forward-thinking performance system that is ready to grow and evolve with you and your needs
