

MIC500USB

High-end pre-amplification for all microphone, instrument and line-level sources. Specifically designed for studio-grade condenser mics. Perfectly matches your studio, live and hard disk recording set-up. Ultra-flexible Preamp Modeling allows you to optimize your recordings. Choose between 16 preamp voicings designed for electric and acoustic guitars, keyboards, bass guitars, drums, vocals and more. Built-in USB/Audio Interface to connect directly to your computer. Free audio recording, editing and podcasting software plus 150 instrument/effect plug-ins downloadable at behringer.com. Powerful Phones output with Level control and Direct Monitor select. Hand-selected 12AX7 vacuum tube with UTC technology for exceptional warmth and lowest noise. Ensures outstanding signal transparency when used as a high-end DI-box. Sophisticated output limiter prevents the output signal from clipping. Dedicated low cut filter eliminates unwanted noise, e.g. floor rumble. +48 V phantom power, Phase Reverse switch and 20 dB Pad for utmost flexibility. Highly accurate 8-segment LED level meter. Balanced inputs and outputs on ¼" TRS and XLR connectors.
